

AMENDMENTS TO THE CLAIMS:

This Listing of Claims will replace all prior versions, listing, of Claims in the Specification.

Listing of Claims:

1. (Currently Amended) A phosphate-based ceramic composition with a low dielectric constant, comprising:

(a) a portion represented by the following formula:

wherein A' and A'' are each independently Ca, Ba, Sr, Zn, Mg, Ni, Mn or Cu,

and x and y are numbers satisfying the following conditions: $1/5 \leq x < 2/5$ and $0 \leq y \leq 1$, x being defined in molar ratio, wherein said phosphate-based ceramic composition has a dielectric constant of 13.2 or less; and

(b) 0.01~5 parts by weight of at least one sintering assistant selected from the group consisting of CuO, B₂O₃ and Bi₂O₃ based on 100 parts by weight of the composition.

Claims 2-11 (Canceled).

MR2685-153

Serial Number: 10/722,491

Reply to Office Action dated 3 February 2006

12. (New) A phosphate-based ceramic composition with a low dielectric constant, comprising:

a portion represented by the following formula:

wherein A' and A'' are each independently Ca, Ba, Sr, Zn, Ni, Mn or Cu,

and x and y are numbers satisfying the following conditions: $1/5 \leq x < 2/5$ and $0 \leq y \leq 1$, x being defined in molar ratio, wherein said phosphate-based ceramic composition has a dielectric constant of 13.2 or less.
